Miscellaneous Memo Requests	
Request	Notes
Removing Language Regarding Grades of 'F' in the AUCC English Composition and Mathematics Requirements	<p>In 2003, UCC and Faculty Council (see the attached minutes) approved adding the following language to the AUCC English Composition and Mathematics Requirements:</p> <p><u>English Composition:</u> "If a student drops or withdraws from the composition course or does not earn a passing grade, the grade of record will become an "F." This grade of "F" will be included in the calculation of both the semester GPA and the cumulative GPA as a consequence of not completing the 60-credit completion requirement."</p> <p><u>Mathematics:</u> "If a student drops or withdraws from the course or does not earn a passing grade, the grade of record will become an "F." This grade of "F" will be included in the calculation of both the semester GPA and the cumulative GPA as a consequence for not completing the 60-credit completion requirement as defined by this policy."</p> <p>The purpose of this request is to remove this language from the AUCC English Composition and Mathematics requirements.</p>
Prohibit Use of Titles/Topics on Courses Numbered That Have Not Been Approved	<p>In the scheduling process, departments have added topical titles to courses. This is not limited to group or independent studies. These unapproved titles/designations have been transcribed. These titles/labels have been used to designate sections, locations, etc. There has not been any review or approval through a curricular process to assure avoiding title overlap/repetition; appropriateness (connotation to the outside); use to distinguish sections, etc. There are options to this practice as 1) providing information on the 'course description screen' in the scheduling process (to direct students to the appropriate section, only the approved course title will be on the transcript-- not the added information) or 2) proposing experimental courses or subtopics to obtain an approved course title (will be transcribed).</p> <p>Therefore, effective Summer 2018, titles/topics will no longer be added to course titles in the scheduling process unless the course has been approved through the University curricular process. See updated document titled, "<i>Section Titles don't match Course Titles</i>" in the UCC agenda FileShare under the '1-26-18' folder.</p>

<i>Warner College of Natural Resources</i>		
Ph.D. in Geosciences	Changing the name of the Ph.D. degree to Geosciences aligns it with the name of the department and of the M.S. degree offered by the department. The broader name "Earth Sciences" was originally selected to reflect the fact that Ph.D. students in Watershed Science were being served by the same degree. The new Ph.D. in Watershed Science (UCC approved 4/28/17) is offered through the Dept. of Ecosystem Science and Sustainability, not Geosciences. With this departure, the broader name of "Earth Sciences" is no longer needed.	Fall 2018
