Miscellaneous Memo Requests	
Request	Notes
New Subject Code Request: PPA (Public Policy and Administration)	The Department of Political Science requests a new subject code (PPA) to facilitate the creation of a new graduate degree program titled Master of Public Policy and Administration. This program is designed to seek and receive accreditation from the Network of Schools of Public Policy, Affairs, and Administration (NASPAA). This accreditation requires a formalized process of assessment and evaluation each year that will be difficult to track without a clear subject code for students completing this program. At minimum, having a new subject code, PPA, specific to this new program will streamline the process of tracking and measuring student outcomes as required by NASPAA. <i>See CIM memo for additional rationale and attachments.</i>
Request to Temporarily Stop Enrollment in the Minor in Arts Leadership and Administration (ARLQ)	The College of Liberal Arts and the LEAP Institute for Arts will work with students who have already declared the minor to complete their requirements. This suspension will give us time to reevaluate how best to support the undergraduate portion of the curriculum.
Prohibit use of titles/topics on courses that have not been approved	See CIM proposal for rational/justification. See updated document titled, " <i>Section Titles don't match Course Titles</i> " in the UCC agenda FileShare under the '1-26-18' folder.
