| JTC 345 | Electronic Field Production | Addition of Distance/Online offering and 'Junior standing' restriction; changing grade mode from Student Option to Traditional; dropping the laboratory and increasing lecture credit/contact hours, i.e., changing from 3(2-2-0) to 3(3-0-0). Per request from the department, these changes were NOT processed effective Spring 2019 because they did not intend to change the Schedule Type and credit distribution as it was submitted and approved. The proposal has been 'rolled back' to the department to edit and resubmit for Fall 2019. | Spring 2019 |

| Correction/Update to 2/2/18 UCC minutes | | | |

| Course # | Course Title | Notes | Effective Term |
| STAA 568 | Topics Industrial/Organizational Statistics | Prerequisite Courses: (STAA 561 or STAT 511A or STAT 520); (STAT 512, may be taken concurrently or STAA 553, may be taken concurrently). Explanation: Different 'parts of term' are not treated as separate terms/semesters in ARIES/Banner. If one partial term course is a prerequisite for another partial term course in the same semester (Spring, Fall, Summer), the prerequisite must state 'may be taken concurrently' in order for students to register without requiring an override. The statement 'may be taken concurrently' must be included after <u>each course</u> the department would like it to apply to – it may not be listed as a blanket statement after the last course in a list of prerequisites (it would only be encoded for the last course in the list). | Spring 2019 |
