

UNIVERSITY CURRICULUM COMMITTEE MINUTES

A regular meeting of the University Curriculum Committee was held on **May 10, 2019** at 2:00 p.m.

The meeting adjourned at 3:55 p.m.

Minutes

The minutes of May 3, 2019 were approved.

Consent Agenda

The Consent Agenda was approved.

Please note: Approved curriculum changes are summarized below. Additional details may be viewed in the Curriculum Management (CIM) system by clicking on the hyperlinked course number or program title below. Once a course proposal is approved to the “Curriculum Liaison Specialist - hold for FC approval” queue in the CIM workflow, the course should be available to be added to the Class Schedule in ARIES/Banner (contingent on the effective term approved by UCC and Scheduling deadlines).

| New Special Academic Unit (SAU) | |
|--|--|
| Request | Notes |
| <p>New Special Academic Unit: Cell and Molecular Biology Program</p> <p>Note: New SAUs require Special Action from Faculty Council. UCC approval is noted here for informational purposes. This proposal will be approved forward in CIM to CoSFP and CoFG.</p> | <p>Rationale: CMB was officially designated as an interdisciplinary graduate program in 1995; however, the program currently functions as an SAU (without the designation). Moving the status from an interdisciplinary graduate program to a SAU will bring the program into compliance with the Academic Faculty and Administrative Professional Manual (AFAPM) SAU policy. CMB meets the criteria of a SAU as defined in the AFAPM. In addition, AFAPM policy drives the composition of CMB’s Academic Oversight Committee (AOC). The CMB-SAU will be housed in the Graduate School, with the Dean of the Graduate School having budgetary oversight and authority.</p> |

| Department Name Change | |
|--|--|
| Request | Notes |
| <p>Agricultural Biology</p> <p>Note: Department name change requests require Special Action from Faculty Council. UCC approval is noted here for informational purposes. This proposal will be approved forward in CIM to CoSFP and CoFG.</p> | <p>Rationale: The current Department of Bioagricultural Sciences and Pest Management would like to change its name to Agricultural Biology. This new name is more descriptive of what we do, easier to understand, and will facilitate attracting students, staff and faculty. The members of our faculty are all biologists, and most of them work within agriculture, thus the name Agricultural Biology is both succinct and descriptive. The name is also easy to remember, and we think that it will resonate better with the citizens of Colorado and the world. A department with similar expertise to ours, at New Mexico State, uses this name for their major and this is a common name for agriculture courses at high school, so clearly the name has some appeal to undergraduates. In addition, we have several online courses, and we think that this name will also be more understandable and appealing to distance students.</p> |
