## OTHER BUSINESS

Discussion Items	
Topic	Notes
Program review and courses that have not been updated in CIM	Discussion item from Kelly Long and Brad Goetz.
Multi-level courses	<a href="#">UCC Handbook</a> > Courses Taught at More Than One Level (page 6): <b><u>All courses must be taught as approved by the curriculum process and must meet the goals, objectives, and requirements stated.</u></b> Normally each regular undergraduate or graduate course is approved to be taught separately from any other regular course. However, if courses are approved to be scheduled simultaneously, credit cannot be awarded for more than one of these courses. A <b>multi-level course</b> is jointly offered at two levels. Colleges and departments are discouraged from proposing multi-level courses. To maintain high academic standards of instruction, multi-level courses should not be proposed unless a compelling reason exists for students at different academic levels to be enrolled together and earn academic credit via different course numbers. <b><u>Proposed multi-level courses must provide a clear distinction of student requirements at each level.</u></b> Credit is awarded at only one level and students cannot transfer between levels as the course progresses.
