Discussion Items	
Topic	Notes
Program review and courses that have not been updated in CIM	Discussion item from Kelly Long and Brad Goetz.
Multi-level courses	UCC Handbook > Courses Taught at More Than One Level (page 6): <u>All courses must be taught as approved by the curriculum process and must meet the goals, objectives, and requirements stated.</u> Normally each regular undergraduate or graduate course is approved to be taught separately from any other regular course. However, if courses are approved to be scheduled simultaneously, credit cannot be awarded for more than one of these courses. A multi-level course is jointly offered at two levels. Colleges and departments are discouraged from proposing multi-level courses. To maintain high academic standards of instruction, multi-level courses should not be proposed unless a compelling reason exists for students at different academic levels to be enrolled together and earn academic credit via different course numbers. <u>Proposed multi-level courses must provide a clear distinction of student requirements at each level.</u> Credit is awarded at only one level and students cannot transfer between levels as the course progresses.

Miscellaneous Memo Request	
Request	Justification
<i>College of Liberal Arts/LEAP Institute for the Arts SAU</i>	
Request to Temporarily Stop Admission to the Minor in Arts Leadership and Administration (ARLQ) in 2021	Per the Executive Committee for the LEAP Institute for the Arts (Arts Management) and the Dean of the College of Liberal Arts, we are requesting that the LEAP Minor be temporarily suspended and enrollment stopped new students effective Spring 2021 . This decision was made to suspend the minor due to budget shortfalls in the SAU. This SAU is self-funded by graduate enrollment, and the undergraduate minor has no financial support other than money earned through this revenue source. This has not proved to be a sustainable model. As the program becomes more solvent, we would like to keep the minor suspended rather than deactivated, as we plan to explore options for a financially feasible program in the future. There are currently 23 minor students in the program. Should the program suspend, 11 students will be able to complete their minor by the end of the summer of 2021. Others may be able to complete the requirements through non-program electives offered outside our area. A teach out plan will be enacted for the remaining students.
